LAWNS, HEDGES &

LACQUERED PLANTERS

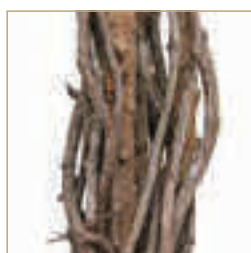

DESERT GROUP

Desert Group was established in 1988 out of a desire to design and construct landscaping projects to exacting world class standards. What was essentially a landscaping and maintenance company has now grown to be a horticultural, outdoor and lifestyle group of companies that straddles the entire breadth of activities associated with a market oriented, green biophilic solution provider. The goal remains to increase shareholder value and develop a sustainable business that is focused on innovation, profit and the customer.

In order to achieve our vision, we will develop structures and systems that are customer focused and allow us to analyse and quickly react to market trends. We will develop products and services that are unique and meet both current and future customer needs and aspirations.

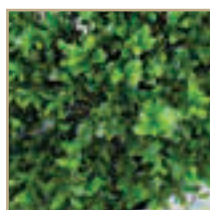

We will provide products and services that are sustainable and environmentally friendly and will develop and use smart technology to that end.

More than 10 kinds of trunks

We offer you a wide selection of
ARTIFICIAL PLANTS AND TREES

More than 30 leaf species

Unique Creations.

Meant for that Space, for that special Occasion.

Customized design and size

Wide range of bushes and sprays

Artificial plants and trees - artificial lawn, grass and hedges - furniture - modern - pots and planters - Christmas Trees and Christmas Items - palms - succulent plants

pots and planters - Christmas Trees and Christmas Items - palms - succulent plants

- shrubs - foliage - natural trunks etc.

WE MANUFACTURE HANDMADE

Artificial plants and trees with natural tropical trunks and washable leaves -

geometric topiary (spheres, cones, hedges, walls, portals, chairs etc.).

We collaborate with you on designing grass, hedges, planters and Christmas Trees for large areas. We are leader in the realization of artificial plants and trees with first class natural tropical trunks thanks to both advanced manufacturing techniques and carefully selected materials. The natural trunks come from any part of the world and they are treated to last for a long time. The branches with their washable leaves are flexible allowing you to personalize the shape of your plant making it look natural. The plastic pots are provided with moss and compact topsoil. Upon request we also manufacture characteristic plants.
